

Frontend Developer

Name: [Hussein Saleem](#)

PROFILE

Motivated and self-taught frontend developer with strong skills in modern web technologies including React, Next.js, and Vue.js. Passionate about building real-world applications and continuously improving. Looking for an opportunity to contribute to a development team, grow my skills, and build impactful products.

SKILLS

Frontend: HTML, CSS, Tailwind, JavaScript, TypeScript

Testing: Unit Testing

Frameworks: React.js, Next.js, Vue.js

Tools: Git, GitHub

Backend: Prisma, MongoDB, PostgreSQL

Other: API Integration, Backend Understanding

PROJECTS

AWARE: [Live Site](#)

- Built a cultural education app to help my friends and I learn about our heritage.
- Implemented responsive frontend with Tailwind and optimized performance.
- This site build with Next.js, React.js, Tailwind, Prisma and MongoDB.

SKYLINE: [Live Site](#)

- Built a full-stack web application for Skyline Telecom to manage the delivery tasks.
 - Allowed delivery workers to submit tasks more easily, replacing inefficient Google Forms.
 - This site build with Next.js, React.js, Tailwind, Prisma and Postgres.
